

Leadership Network Topics

REGION 10

This year's offerings include a combination of sessions presented by Bricker and Eckler, LLP focused on a comprehensive understanding of the key components of special education and the legal requirements that serve as the foundations for services and supports to students with disabilities. Candid discussions about the legal requirements and ethical responsibilities that administrators face in today's complex educational environment will be encouraged during these sessions.

Additional offerings will focus on district special education reports, ODE facilitation and mediation services, inclusive practices and ODE Special Education Updates.
